

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

READERS' GUIDE TO PERIODICAL LITERATURE SUPPLEMENT

VOLUME II
1916 - 1919

A CUMULATION OF ANNUAL VOLUMES 4 TO 7

AUTHOR AND SUBJECT INDEX TO A SELECTED LIST OF PERIODICALS
NOT INCLUDED IN THE READERS' GUIDE

EDITED BY
ELIZABETH J. SHERWOOL
ASSISTED BY
GRACE F. CALDWELL

THE H. W. WILSON COMPANY
NEW YORK CITY
1920

PREFACE

THE READERS' GUIDE SUPPLEMENT in its seven years of service has come to fill a distinct place. Begun in 1913 to provide for the indexing of periodicals of too limited circulation to be included in the Readers' Guide, it has increased its list from 36 to 80 and seems capable of almost unlimited expansion and development.

The fact that the SUPPLEMENT is sold on a service basis makes it possible to index in it periodicals so specialized that only a few libraries have them. The material contained in these magazines, however, may be highly essential to a few individual students. The special research worker has in the SUPPLEMENT an index to the material along his own line which could not be issued as a separate publication because of the prohibitive cost of such an undertaking, but one which is not impaired in usefulness by being combined with references to many other subjects. Some of the special subjects covered in the present cumulation are: astronomy (Astrophysical Journal, Popular Astronomy); different phases of education (American Physical Education Review, English Journal, Journal of Geography, Kindergarten-Primary Magazine, Nature Study Review, Pedagogical Seminary, Religious Education, School Science and Mathematics, Teachers College Record); philology (American Journal of Philology, American Journal of Semitic Languages, Classical Journal, Classical Philology, Modern Language Notes, Modern Philology).

No periodical in a foreign language had been included in any of the Wilson indexes before 1916. In that year, however, two, one in French, the other in German were added to the SUPPLEMENT. The *Revue des Deux Mondes* is probably the best known and most widely read in this country of continental reviews; in spite of wartime difficulties, every number since January, 1916 has been issued promptly. Since 1917, three other French magazines have been indexed in the SUPPLEMENT. These are *Revue de Paris*, *Revue Politique et Littéraire* and *Revue Scientifique*. Of the German periodical, *Deutsche Rundschau*, only two numbers were indexed in 1916. From that time until after the armistice, of course, no German printed matter reached this country, but as the publishers of *Deutsche Rundschau* in 1919 sent the complete file for the four years, these numbers have been indexed and are included in this cumulation.

The A. L. A. Publishing Board has for several years issued on cards author and subject references to a number of specialized periodicals. In 1919 this service was incorporated in the READERS' GUIDE SUPPLEMENT. The indexing is still done by the cooperating libraries and edited by Mr. William Stetson Merrill of The Newberry Library, but the headings and form of entry have been adapted to Readers' Guide and SUPPLEMENT prac-

PREFACE

tice. These references are filed in with the SUPPLEMENT entries, but the list of A. L. A. serials has been printed separately and follows the list of regular SUPPLEMENT periodicals.

As far as possible back numbers of periodicals added since 1916, have been obtained and indexed for this cumulation. Social Hygiene is now indexed from its first number and the Eugenics Review from April, 1916. That no volume of the Proceedings of the American Society of International Law has been included since 1917, is due to the fact that the society held no meetings in 1918 and 1919.

The subject headings used in the SUPPLEMENT follow those established by the Readers' Guide as closely as is possible in view of the fact that the subjects in the SUPPLEMENT are more specialized and often require more specific headings. It is becoming increasingly necessary, also, to subdivide by country since the English, French and German magazines all treat of each subject with a more or less national bias.

Editorial work on the present cumulation was begun by Miss Azalea Clizbee who had edited the current numbers of the SUPPLEMENT from May, 1918 until the last of 1919, when she became cataloguer for the American Art Galleries. Great credit is due Miss Mertice James, Miss Emily Anderson and Miss Judith Fried, for their care in checking references and correcting galley and page proof on this four-year volume.

E. J. S.
